DRESS GOODS.

My importations for this Fall and Winter of Ladies' and Children's Dress Goods exceed in cost of investment \$10,000 any other purchase I ever made in this one line of goods. With forty years' experience in Dry Goods business in Paris I saw it was to your and my interest to secure these goods under the low tariff, consequently I invested every available dollar I had in goods at low prices. The new Dingley tariff bill has already made and will when set fully at work make all classes of Dry Goods fully double in price what they were under the Wilson or low tariff. I have the advantage of this: My goods were bought when cheap, and it is my intention to hold them down as long as a yard of them lasts. If you want to save money in your purchase this Fall and Winter come and see me and examine my stock and hear prices before you invest elsewhere.
